Our Company

Kayak en Patagonia was born more than two decades ago, originally conceived by a group of friends and guides that were born and raised on the shores of the Señoret Channel in Puerto Natales, Chilean Patagonia. Their dream was to explore and navigate the hidden secrets that only locals knew and to show their beauty and wonders to the people that visit this region.

Today, **after the many trips and unforgettable experiences** that we have shared paddling with people from all over the world, we want to welcome you to Patagonia, a true paradise for Kayaking adventures. We want to give you a "Travel experience". We work with the best team, quality gear and food for each of our trips.

Our certified guides have the knowledge and qualification that is needed to provide you a safe, **fun and unique experience, paddling in Patagonia!**

Itinerary

Distance: **18 Miles**
Paddling Time: **4 - 5 Hours**

Private transportation will be provided from your hotel/hostel to the shores of Grey Lake, located in Torres del Paine National Park. The journey will take you 67 Miles north from Puerto Natales to the southern access to the park.

While enjoying the view of Paine Grande and Grey Glacier, our guide will give a brief explanation of safety and instructions for paddling efficiently.

We will navigate the lake for approximately 1 hour, paddling among big pieces of ice that have broken from Grey Glacier. These icebergs are scattered throughout the lake and are sculpted into incredible shapes by the wind and sun.

During the navigation, we will have an amazing view of the magnificent Paine Massif; including Paine Grande, the Olguin Range, and Los Cuernos (The Horns of Paine). These mountains, together with the grey water, make for a perfect contrast with the giant walls of granite and sedimentary rock.

After paddling in Grey Lake, we will begin the descent of Grey River. The river serpents through deep canyons with steep rock faces, creating sections of rapids that are exciting and entertaining. We will have the opportunity to appreciate many different species of aquatic birds that inhabit the river.

We will continue to paddle next to the Paine Massif for 15 Miles, the length of Grey River until it joins with the turquoise water of the Serrano River.

After paddling for 4 - 5 hours, the adventure comes to an end at Serrano Village.

Private transportation is provided for your return to Puerto Natales. / Lunch and Snacks included

* Wind is a very normal factor in Patagonia, if you choose to do this trip, you have to consider that paddling with wind may be a possibility.

* If the wind is too strong, it will not be possible to enter the Iceberg Zone. If this is the case, we will only paddle the River (which is more sheltered)
